www.greenvelo.pl

www.greenvelo.pl web portal

Visit www.greenvelo.pl and find out for yourself about all the advantages of the East of Poland Cycling Trail. The Green Velo portal is the biggest cycling guide to Eastern Poland. It will explain how to get to know not only the Green Velo trail, but also other routes in the area. It will reveal places of interest and the best places to eat, and will help to find accommodation. Before setting off, create your schedule using our intuitive trip planner in just a few easy steps. News, an events calendar and our newsletter will keep you up to date with events and news from the trail.

Mobile Application

All essential trail information can be found in the Green Velo mobile app (available on Android, iOS and Windows Phones). The app will help you to find places of interest, accommodation, restaurant facilities and BSPs along the way. Trails in your area are listed so that you can find those that interest you most. And don't worry about poor phone reception – all of the most important information is accessible offline. The app lets you record the course of your trip as you ride and helps you to plan future trips. Just choose points on the map and the system will automatically generate the best route for you.

Attractions:

- 1. Church of Christ the Redeemer
- 2. Church of St Adalbert and St Nicholas
- 3. Municipal and Communal Cultural Centre, Egyptian Orangery
- 4. Palace and park complex
- 5. Regional Museum of the PTTK

Bike Kingdom Świętokrzyskie Mountains and the Area

The Świętokrzyskie Mountains and the Area bike kingdom covers the most interesting parts of the Świętokrzyskie Mountains. This picturesque landscape is dominated by numerous, mostly forested, mountain ranges, each divided by a deep valley. The lower ground is covered by the striped fields, which are characteristic of this region. In its very heart, there is the Świętokrzyski National Park with its unique stone runs. Around the National Park there are a number of landscape parks with precious nature reserves. This land is undeniably a geologist's paradise where rocks from many geological periods lie together in such a confined space.

As far as culture and history are concerned, the kingdom of "Świętokrzyskie Mountains and the Area" is rich in both due to its preserved heritage and traditions. In many places relics and traces of the ancient Jewish, Arian and Polish communities who lived there, are still visible. There are historical sites representing buildings from the majority of the main architectural styles: Romanesque, Gothic, Baroque and Classical, both religious and secular. Objects connected with the region's industrial heritage, particularly the Staropolski Industrial Region, are part of a separate group of monuments. The East of Poland Cycling Trail is well marked throughout the kingdom,
