Bike Kingdom Polesie

The Polesie region spans an area around the borders of Poland, Belarus and Ukraine. Although Poland is home to a relatively small part of the region, it still covers an extensive area in the east of the country.

The Poleski National Park is in the Łęczyna-Włodawa Lakeland in the central part of the kingdom, about 20 kilometres west of the Green Velo route. You can explore the park on foot or by bicycle following marked paths and trails.

www.greenvelo.pl web portal

Visit www.greenvelo.pl and find out for yourself about all the advantages of the East of Poland Cycling Trail. The Green Velo portal is the biggest cycling guide to Eastern Poland. It will explain how to get to know not only the Green Velo trail, but also other routes in the area. It will reveal places of interest and the best places to eat, and will help to find accommodation. Before setting off, create your schedule using our intuitive trip planner in just a few easy steps. News, an events calendar and our newsletter will keep you up to date with events and news from the trail.

Mobile Application

All essential trail information can be found in the Green Velo mobile app (available on Android, iOS and Windows Phones). The app will help you to find places of interest, accommodation, restaurant facilities and BSPs along the way. Trails in your area are listed so that you can find those that interest you most. And don't worry about poor phone reception – all of the most important information is accessible offline. The app lets you record the course of your trip as you ride and helps you to plan future trips. Just choose points on the map and the system will automatically generate the best route for you.

The southern part of the kingdom, where the Bug river runs along the border with Ukraine, is home to marshland and the extensive pine Sobibór Forest. The Sobibór Forest also holds a vestige of the dark history of the Second World War: the Museum of the Nazi Concentration Part in Sobibór, at the time hidden deep in the forest.

The trail runs through Włodawa and Wola Uhruska, some of the most interesting towns in this part of Polesie. In Włodawa, visit the well-preserved monuments of its residents' multicultural heritage, with the most notable examples of architecture being the church, synagogue and Orthodox church. Near Włodawa, it's worth stopping off at the popular summer tourist resort of Okuninka.

The southern area by the River Bug around Wola Uhruska forms a varied, rolling landscape, best viewed from the top of the observation tower. Beyond Wola Uhruska, the cycle route towards

Chełm soon opens out onto Chełm Hills, with many ascents and descents along this part of the trail. It's worth stopping off for longer at the city of Chełm, once the capital of the historical Chełm Land and still bearing numerous marks of its rich, multicultural past. There are many historical monuments, with the most famous on Chełm Hill and nearby.

Another interesting town along the Green Velo route is Krasnystaw on the River Wieprz, with a beautifully renovated market square and Jesuit monastery. After leaving Krasnystaw, the trail heads towards the forests and elevations of one of the most beautiful bike kingdoms along the route: Roztocze.
