www.greenvelo.pl web portal

Visit www.greenvelo.pl and find out for yourself about all the advantages of the East of Poland Cycling Trail. The Green Velo portal is the biggest cycling guide to Eastern Poland. It will explain how to get to know not only the Green Velo trail, but also other routes in the area. It will reveal places of interest and the best places to eat, and will help to find accommodation. Before setting off, create your schedule using our intuitive trip planner in just a few easy steps. News, an events calendar and our newsletter will keep you up to date with events and news from the trail.

Mobile Application

All essential trail information can be found in the Green Velo mobile app (available on Android, iOS and Windows Phones). The app will help you to find places of interest, accommodation, restaurant facilities and BSPs along the way. Trails in your area are listed so that you can find those that interest you most. And don't worry about poor phone reception – all of the most important information is accessible offline. The app lets you record the course of your trip as you ride and helps you to plan future trips. Just choose points on the map and the system will automatically generate the best route for you.

Bike Kingdom Roztocze

Roztocze is a geographical area stretching from Kraśnik in the Lubelskie Voivodeship in the west to Lviv in Ukraine in the east. Its eastern part lies in the Lubelskie and Podkarpackie Voivodeships. Roztocze's varied terrain with its rolling hills, deep river valleys and villages and towns set among a mosaic of fields is simply breathtaking.

Immortalised in Jan Brzechwa's poem, the city of Szczepleszyn boasts many beautiful ancient buildings and a statue of a cricket, also featured in the poem. The Roztocze National Park in Central Roztocze

is an area of exceptional natural beauty rich in wildlife; the Park's headquarters are located in the town of Zwierzyniec. Southern Roztocze, bordering the dense forests of the Solska Wilderness, is home to the famous rapids and waterfalls on the small Tanew river.

One of the most beautiful cities of Eastern Poland and Listed as a UNESCO World Heritage Site, Zamość is located near the trail. The stronghold is a perfect example of a Renaissance town, and its picturesque tenement houses, sacral buildings, market square and well-preserved fortifications are a must-see.

The Green Velo route runs through many pretty villages and towns, some of the most popular of which are Józefów, Górecko Kościelne and Susiec. In the

Podkarpackie Voivodeship lies the town of Narol with the 18th-century Łoś family palace and the spa village of Horyniec-Zdrój, near the Ukrainian border. Some of the greatest attractions of the area are the wooden Orthodox churches in Radruż and Chotyniec, also Listed by UNESCO. You can find more beautiful old Orthodox churches near Horyniec-Zdrój, such as those in Łowcza and Nowe Brusno.

The connecting route of the Green Velo trail runs through Roztocze from Zwierzyniec via Biłgoraj, towards the River San and the city of Sandomierz.
